Intro Quiz

Question: Introduce yourself and include something of interest.

Answer (one paragraph):

My name is Andrew Green. I already have a BS in CSE and I'm on UNR's graduate special program to make up for an unsatisfactory grade I got 10 years ago to boost my GPA. I'm planning on transferring to another institution, hopefully RIT or Colorado School of Mines, to get a Master's degree in ECE with a focus on operating systems development or hardware design, specifically device driver engineering or GPU engineering or just anything to do with computer architecture.
